

Blank Stakes & Tags

Whether you're a Production Manager or Retail Manager our blank series of products will give you flexibility for different situations. They are easily used to monitor and record many of the stages in the production process. These blanks are also very effective in the garden center setting to inform the consumer. Our blank handles are used for many grower projects. Macore's injection molded product is also sturdy and made from excess, recycled plastic from our various label production steps.

.019 Styrene or .020 Vinyl

See description for substrate available. Styrene available in White and Colors.
